STUDENT FINANCIAL AID – AWARD YEAR 2009-2010

NEW

This form requests all categories of student financial aid data available to students except for private grants and loans that have not been disclosed to colleges. It represents a departure from prior years because it is more inclusive and is intended to encompass data which previously was available from the Higher Education Services Corporation (HESC), the State Education Department (SED), and the U.S. Department of Education. The data will be a unique information resource for the higher education community, policy makers and the public and for compliance with Section 603 of Education Law.

If your institution is unable to report on requested data because it has not been maintained, then steps must be taken to begin collecting that information. The inclusion of data elements in HEDS forms constitutes a request by the Regents for your institution to collect and report on those items for their planning purposes.

The preferred method for submitting this form is electronic, using our Access form with built-in edits. To submit electronically, download and complete the Microsoft Access version from the ORIS web site, <http://www.highered.nysed.gov/oris/>, and follow the instructions there for submitting the Access file by e-mail to heds@mail.nysed.gov.

For paper submissions, please return one completed copy (all pages, except instructions) and retain a copy in your files in the event your institution needs to be contacted for clarification. The completed copy should be submitted by **September 15, 2010** to:

GENERAL INSTRUCTIONS

1. What is student aid?

For this form, student aid is defined to include resources used by students at your institution to defray their education-related expenses (such as tuition, books, living expenses, travel) when the resources are:

- a. awarded as part of a financial aid package.
- b. discounted from expenses by your institution;
- c. used by your institution's employees or their dependents for students at your institution in accordance with formal employee benefit policies; or
- d. awarded as educational benefits or awards by governments, employers or other external organizations and known by your institution.

2. Student groups to exclude.

Do not report on aid to the following groups of students:

- a. Students taking noncredit adult education courses and noncredit extension courses who are not enrolled in noncredit certificate and/or diploma programs.
- b. Students taking courses at home by mail, radio, television, or telecommunications when their courses are not creditable toward a degree or credit-bearing certificate or diploma or not part of a noncredit certificate or diploma program.
- c. Auditors.
- d. Students studying abroad (e.g., at a foreign university) if their enrollment at the reporting institution in New York State is only an administrative record, and they are only paying a nominal fee. Exclude students and their credit hours only if they are not paying tuition to your institution.
- e. Students enrolled at campuses in states other than New York State.
- f. Students known to be enrolled concurrently at another college or university where their enrollment and financial aid are being reported.
- g. Students who have completed study at your institution but are receiving aid such as loan forgiveness or loan repayment.
- h. Post-doctoral students and researchers.

Federal Title IV Programs including Pell Grants, Federal Supplemental Opportunity Grants, Federal Family Education Loans including Subsidized and Unsubsidized Stafford and Parent Loans, Federal Perkins Loans, Federal Direct Loans, and Federal Work Study will all now be collected on this form.

4. Time period.

Your responses should reflect aid awarded to support enrollment during a 12-month award year, usually defined as July 1 through June 30.

5. Empty cells.

Use zeroes to indicate that no aid was awarded. No cell on the form should be left empty except that you may:

- a. Leave columns (A) and (B) empty if your institution did not enroll undergraduates during the award year.
- b. Leave column (C) and (D) empty if your institution did not enroll graduate or first-professional students during the award year.

6. Estimates.

When you do not have precise data, report your best estimate.

8. Counting recipients.

Report the number of students receiving one or more awards for each line. A student should be counted as one recipient for each line if any of the following conditions are met:

- b. one or more awards were made for part-year, full-time study;
- c. one or more awards were made for full-year, part-time study;
