

# Enrollment of Students with Disabilities

## New York State

|                     |                     | Type of Program |                  | Total  |
|---------------------|---------------------|-----------------|------------------|--------|
|                     |                     | Occupational    | Non-Occupational |        |
| Learning Disability | 1997                | 3,401           | 7,572            | 10,973 |
|                     | 1999                | 3,148           | 9,937            | 13,085 |
|                     | 2000                | 3,536           | 10,957           | 14,493 |
|                     | 2001                | 3,774           | 11,313           | 15,087 |
|                     | 2002                | 3,931           | 12,088           | 16,019 |
|                     | 2003                | 3,663           | 12,699           | 16,362 |
|                     | 2004                | 4,373           | 13,846           | 18,219 |
|                     | 2005                | 4,531           | 13,728           | 18,259 |
|                     | 2006                | 4,505           | 14,013           | 18,518 |
|                     | 2007                | 4,766           | 14,534           | 19,300 |
|                     | 2008                | 4,965           | 15,570           | 20,535 |
|                     | 2009                | 5,403           | 16,090           | 21,493 |
|                     | Wheelchair Assisted | 1997            | 137              | 368    |
| 1999                |                     | 113             | 353              | 466    |
| 2000                |                     | 122             | 412              | 534    |
| 2001                |                     | 106             | 395              | 501    |
| 2002                |                     | 93              | 331              | 424    |
| 2003                |                     | 67              | 294              | 361    |
| 2004                |                     | 92              | 329              | 421    |
| 2005                |                     | 89              | 348              | 437    |
| 2006                |                     | 107             | 336              | 443    |
| 2007                |                     | 86              | 339              | 427    |
| 2008                |                     | 92              | 308              | 400    |
| 2009                |                     | 87              | 303              | 390    |

NOTE: Years with asterisks indicate datasets that may be incomplete and/or not yet fully edited.

NOTE: Beginning in 2004, students with multiple disabilities were also reported in each category of disability that they fit resulting in a bump in the trend line for most categories. The total category remains an unduplicated count of students, so the trend line is valid.
